Authorized Service Stations

May 2, 1967

The nationwide network of factory Authorized Service Stations listed hereon has been established for your convenience and in the interest of providing fast local service on both In-Warranty and Out-Of-Warranty guns. All of these Stations are fully equipped to handle repairs on all models of Crosman Pellguns and Hahn BB Guns. DO NOT return your gun to the factory. Guns can only be returned after having received written permission from the factory. Refer to the nearest Service Station on this list.

The guarantee certificate attached to the instruction sheet that is packed with each Crosman Gun should be properly filled out at time of purchase and must accompany your gun when sent to a Service Station for repair during the company's 90-day guarantee service period. If the guarantee certificate has been misplaced, the Sales Slip (Sales Slip) from your dealer will suffice.

NOTE: Air and CO₂ Pistols can only be mailed to and from bona fide dealers, manufacturers and service stations and in turn must conform with Postal Laws and regulation requirements at time of mailing. Ask your local dealer to mail it for you. These units may be sent by Railway Express in most states.
